

Technical drawing of a mechanical assembly, showing three views: front view (top left), top view (top right), and isometric view (bottom right). The drawing is on a grid with dimensions 8x8.

Front View (Top Left): Shows the assembly from the front. It features a base plate with a central vertical slot. A horizontal arm is mounted on the base, with a vertical rod passing through it. The rod is secured with a nut and washer at the top. A small component is attached to the end of the rod.

Top View (Top Right): Shows the assembly from above. It highlights the horizontal arm and the central vertical rod. The arm has a rectangular cross-section. The rod is shown passing through the arm and the base plate.

Isometric View (Bottom Right): Shows the assembly in a 3D perspective. The base plate is a rectangular block. The horizontal arm is mounted on top of the base. The vertical rod passes through the arm and the base, secured with a nut and washer. A small component is attached to the end of the rod.

Title Block (Bottom Right):
